# Help the HEF Find Photos of Seven Saxon Grads

The Hurley Education Foundation and Saxon graduate Ken Clement have been working on a special class photo project - the Saxon Alumni Picture Project - for a couple of years now. They have done an amazing job identifying and refurbishing all of the photos found to date, and hanging them in the Alumni Wing at the Hurley School. The first "wave" of the project was established prior to the July 2018 HEF Distinguished Alumni induction ceremony.

But they didn't stop there. The hunt has continued for missing class photos, and now they could use some help completing the project. They are missing photos of six graduates of the Saxon class of 1948 and just one from 1945.

Missing from the Class of 1948: Jacob Johnson, Roland Mashl, Barbara Lyton Kaucnik, John Nordberg, James Smith and Leroy Sunie.

Missing from the Class of 1945: Martha Gulan.

Anyone having access to or information that could lead to

obtaining photos of these graduates is encouraged to contact either Ken Clement, 715-892-2284 or Gary Pelkola, 715-561-5244.

The HEF will be posting the project's progress on their website as they receive the missing photos: [www.myhef.org](http://www.myhef.org). Just click on the Alumni tab to browse class pictures. When found, the committee will have a photo of every single Saxon graduate since 1930 on permanent display in the Alumni Wing. Their goal is to have photos of all Saxon graduates displayed for the Hurley Education Foundation Ceremony this July.
